

MDCalc is the #1 medical reference for clinical decision tools and content used by over 1.8 million HCPs globally, including more than 60% of US physicians, every month. Since 2005, MDCalc has been an essential part of the HCP's workflow at point-of-care to achieve better patient outcomes. Our evidence-based tools and clinical content written by physician experts support 35+ specialties and cover 200+ patient conditions, and we have a growing global presence with users in over 100 countries.

Job Opening: Mid/Senior Web Developer

MDCalc is seeking a **Mid/Senior Software Developer (mostly front end and native)** to help build new features for our hospital integrations, new tools, and to improve our existing codebase with best modern practices . This role is ideal for someone who wants to apply their technical skills to important problems in healthcare, can help think through business problems to turn them into technical solutions. This role can be **remote, part-time and contract**, all terms are flexible. Responsibilities include:

- Contribute directly to feature development on React Webapp and React Native app.
- Find ways to improve existing code and patterns
- Collaborate with product/sales teams and CEO to design and plan features
- Support communications with technical teams of clients to facilitate integrations

Skills you should have (nice to have skills indicated with +):

- 3+ years of professional development experience with strong front-end and/or native focus
- ReactJS
- React native+
- Basic Data Modeling/Data Storage patterns +
- hands on ops experience (spin up servers, monitoring, deployment scripts, etc..)+
- experience with data privacy related security, especially HIPAA compliance or at least financial regulations of some sort
 - o experience with FHIR, Smart-on-FHIR +
- AWS tools +
- node js +
- Health Care Tech+

What we can offer you:

- Make a difference working with a small and nimble team positioned to change healthcare for the better
- Competitive benefits package: PTO, paid family leave, health insurance subsidy, etc
- Potential for profit sharing and an ownership stake in the company
- Have your voice heard and make an impact by being a trusted advisor to the leadership team
- Work directly with practicing MDs while learning more about the evolving healthcare landscape
- Perks such as educational credit, team lunches and outings, milestone celebrations, and more

Note that MDCalc is an **established start-up with an entrepreneurial environment**, so candidates should be prepared to be in a position to make a significant contribution to the company. The ideal candidate is a self-starter who can own a task, sustain motivation, and follow through to achieve results.

If you think you would be a good fit for the MDCalc team, please submit **your resume and a cover letter highlighting relevant experience and how this role may help you achieve your future goals** to Ian Borukhovich (ianboru@gmail.com)
